Fumigation of Imported and Exported Wooden Crates		The government has adopted the International Standards for Phytosanitary Measures - NIMFN°15, with the purpose of almost eliminating in its totality the risk of entrance of most of pests that are in quarantine and considerably reducing the risk of other pests.	
		 The Phytosanitary measure approved for the treatment of wood packing should be treated as follows: Heat Treatment (HT) to a minimum wood core temperature of 56°C for a minimum of 30 minutes or Fumigation with Methyl Bromide (MT). The minimum temperature should not be less than 10°C and the minimum exposure time should be 16 hours. 	
		The wood packing material must be marked in a visible location on each article, on at least two opposite sides of the article, with a legible and permanent mark.	
		The mark can be painted with permanent black painting. The colours red and orange do not have to be used as colour of the mark.	
		Labels or adhesive are not allowed.	
		The approved format for the mark is as follows, where XX would be replaced by the
